Mr. Tawfiq M. Saleh
Technology Resources Company (TRC)
Kuwait

Mr. John Phipps
Cokebusters Ltd
UK

Sub: Technology Resources Co & Cokebusters Ltd.

EQUATE would like to express its appreciation to CBL (Cokebusters Ltd) and TRC (Technology Resources Company) and their team for successfully completing the mechanical and special chemical cleaning services for two Oxygen pipelines (10 inch and 12 inch) and mechanical cleaning services for long pipelines (5.5 KM) (6 inch, 8 inch, 12 inch, 14 inch and 16 inch) in EQUATE's new plant during 2008.

EQUATE would also like to express its appreciation to CBL and TRC for successfully finding the exact location of a restriction in one of EQUATE's pipelines. Even though the length of the pipeline was 5.5 Kilometer, CBL team was able within few days to pin point the exact location of the restriction which was then removed by cutting the pipeline.

CBL / TRC have worked for EQUATE in pipeline cleaning activity since 2006. EQUATE commend the high quality of their professional service provided to EQUATE. CBL / TRC have made all efforts and close attention for meeting all of EQUATE's requirements (short mobilization period, multiple site visits, special mechanical and chemical cleaning procedure for Oxygen pipelines, and locating a restriction in one of the pipelines).

In all of the above services they demonstrated technical Knowledge and professional capabilities in pipeline cleaning services and set out to find the most effective solutions to client technical concerns.

In summary TRC/CBL are approved and preferred contractors for providing professional pipeline mechanical and chemical cleaning service to EQUATE.

Yours truly,

Jamal Al-Ghareeb
Distribution Operations Manager

CC: Mr. Ahmed Saleh
MM Dept. Leader
